Tanning Facts Sheet

Spray Tanning lasts between 5 – 7 days

To ensure the BEST results from your Spray Tan Application it is vital to follow these important points:

BEFORE TANNING:

- Exfoliate for 2 – 4 days with a mixture of white sugar and a liquid soap wash.
- No moisturiser for a minimum of 24 hours.
- No perspiration e.g. No excessive exercise prior to Tan Application
- No perfume or deodorant.
- Wear loose clothing and thongs.

AFTER TANNING:

- Do not shower for a minimum of 8 hours.
- After showering – always gently pat dry skin.
- Only use a liquid soap wash.
- No "prolonged" swimming.
- Apply liberal amounts of moisturiser.

NB: We do not recommend Spray Tanning any skin area where there is excessive dry, scaly skin, e.g. Eczema, Psoriasis, etc as product build-up can occur in these areas.
